NIGHTLOCK[®] LOCKDOWN

*Classroom Door Barricade**

HELPFUL QUESTIONS & ANSWERS

Q: What do Safety Experts recommend?

A: According to the FBI & US Homeland Security, the average Active Shooter event last 5-10 minutes. Safety Experts recommend that your response protocol and Active Shooter Training include door barricade devices while sheltering in place.

Q: Where do I keep the removable locking handle when not in use?

A: A Wall Box is provided to hold the handle. Mount in a secure place near the classroom door or the teacher's desk.

Q: Can police or school officials unlock the Nightlock Lockdown from outside the classroom?

A: A special tool is supplied and available to release the device from outside the classroom.

Q: Is it a Trip Hazard?

A: The Nightlock Low Profile floor plate is used in high traffic areas. It has smooth beveled edges and is only 1/8" inch high.

Q: Local or State Fire Codes?

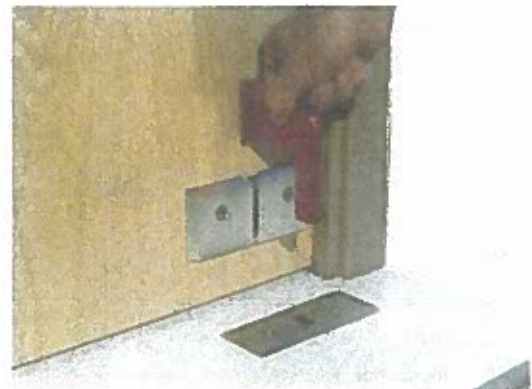

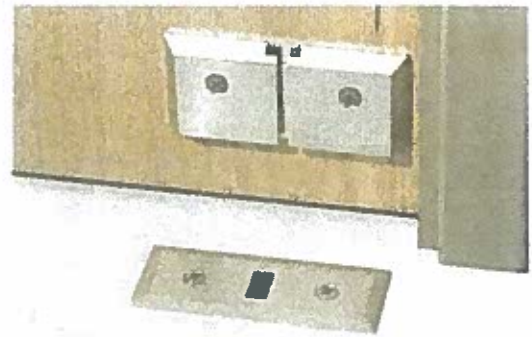

A: Most lockdown policy procedures for classrooms include "barricading the classroom door," with items such as desks or furniture. To comply with local and state fire codes, only barricade doors during actual emergency lockdown events and drills.
