

IICU MEP North Park University Retirement Plan

Welcome to your retirement program!

North Park University recognizes the importance of providing you with ways to plan for your financial future. As a member of the Illinois Independent Colleges and Universities (IICU), North Park University participates in the Multiple Employer Plan (MEP). The MEP is an important part of your overall benefits and represents the retirement plan for North Park University.

What you need to know

North Park University makes contributions to the plan on your behalf if you are an eligible employee. In addition, if eligible, you may begin contributing to the plan by contacting your HR office to complete a salary deferral form and then enrolling in the plan at [TIAA.org/IICU](https://www.tiaa.org/IICU). Even if your retirement is years away, the sooner you start participating in the IICU MEP North Park University Retirement Plan, the more time your money has to work for you. Enrolling in the plan can help put you on a path toward a more secure financial future.

IICU MEP North Park University Retirement Plan benefits

You may make pretax or Roth contributions to the plan up to the maximum amount determined annually by the IRS. Roth contributions and any earnings will be tax free at withdrawal if certain conditions are met.

When creating your retirement strategy, you can take one of two approaches:

1. Review the IICU MEP Target Date Model Portfolios

The IICU MEP Target Date Model Portfolios, available through the TIAA RetirePlus Pro® service, help simplify investing by providing a single model portfolio based on estimated retirement age. Each model portfolio includes a professionally selected mix of investments available under the plan and corresponds to criteria developed by the IICU MEP, in consultation with PlanPILOT, the independent advisor to the plan.

You can personalize the selection of your model portfolio by updating your projected retirement age and answering a few questions about your tolerance for investment risk. Once you select a model portfolio, it will be automatically rebalanced if the allocation of any investment option is 3% or more from its target.¹

2. Build your own retirement portfolio

The plan offers a range of investment options from which to choose. Learn more about your investment choices online at [TIAA.org/IICU](https://www.tiaa.org/IICU).

¹ IICU MEP Target Date Model Portfolios

The TIAA RetirePlus Pro® models are asset allocation recommendations developed in one of three ways, depending on your plan structure: i) by your plan sponsor, ii) by your plan sponsor in consultation with consultants and other investment advisors designated by the plan sponsor, or iii) exclusively by consultants and other investment advisors selected by your plan sponsor whereby assets are allocated to underlying mutual funds and annuities that are permissible investments under the plan. Model-based accounts will be managed on the basis of the plan participant's personal financial situation and investment objectives (for example, taking into account factors such as participant age and risk capacity as determined by a risk tolerance questionnaire).

This material is for informational, educational or non-fiduciary sales opportunities and/or activities only and does not constitute investment advice (e.g., fiduciary advice under ERISA or otherwise), a securities recommendation under all securities laws, or an insurance product recommendation under state insurance laws or regulations to invest through a model or to purchase any security or advice about investing or managing retirement savings. It does not take into account any specific objectives or circumstances of any particular customer, or suggest any specific course of action.

You should consider the investment objectives, principal strategies, principal risks, portfolio turnover rate, performance data, and fee and expense information of each underlying investment carefully before directing an investment based on the model. For a free copy of the program description and the prospectus or other offering documents for each of the underlying investments (containing this and other information), call TIAA at 877-518-9161. Please read the program description and the prospectuses or other offering documents for the underlying investments carefully before investing.

The Plan Fiduciary and the Plan Advisor may determine that an underlying investment(s) is appropriate for a model portfolio, but not appropriate as a stand-alone investment for a participant who is not participating in the program. In such case, participants who elect to unsubscribe from the program while holding an underlying investment(s) in their model-based account that has been deemed inappropriate as a stand-alone investment option by the Plan Fiduciary and/or the Plan Advisor will be prohibited from allocating future contributions to that investment option(s).

Established Restrictions: Each plan participant may, but need not, propose restrictions for his or her model-based account, which will further customize such plan participant's own portfolio of underlying investments. The Plan Fiduciary is responsible for considering any restrictions proposed by a plan participant, and for determining (together with Plan Advisor(s)) whether the proposed restriction is "reasonable" in each case.

No registration under the Investment Company Act, the Securities Act or state securities laws—The model is not a mutual fund or other type of security and will not be registered with the Securities and Exchange Commission as an investment company under the Investment Company Act of 1940, as amended, and no units or shares of the model will be registered under the Securities Act of 1933, as amended, nor will they be registered with any state securities regulator. Accordingly, the model is not subject to compliance with the requirements of such acts, nor may plan participants investing in underlying investments based on the model avail themselves of the protections thereunder, except to the extent that one or more underlying investments or interests therein are registered under such acts.

No guarantee—Investments based on the model are not deposits of, or obligations of, or guaranteed or endorsed by TIAA, the Investment Advisor, the Plan or their affiliates, and are not insured by the Federal Deposit Insurance Corporation, or any other agency. An investment based on the model is not guaranteed, and you may experience losses, including losses near, at, or after the target date. There is no guarantee that investments based on the model will provide adequate income at and through your retirement. Investors should not allocate their retirement savings based on the model unless they can readily bear the consequences of such loss.
